SOFT SKILLS

- Analytical Thinking
- Problem Solving
- Vendor Management

LANGUAGES

- English (Intermediate)
- Thai (Native)

PROFILE

Dedicated IT Professional with 9 years of experience bridging the gap between Network Infrastructure and Application Development. Proven ability to build custom web solutions using PHP 8 and SQL Server that solve real-world business problems, such as fleet automation and logistics tracking. Proficient in T-SQL scripting for data integration and MikroTik/Ubiquiti configuration.

Actively applying my background in systems and coding to transition into DevOps practices, with a strong focus on automation and process optimization.

WORK EXPERIENCE

Ornate SDO.Co,Ltd

2019 - PRESENT

IT Administrator & Web Developer

- Developed a full-stack Fleet Maintenance & Mileage Tracking System (PHP 8, SQL Server), reducing engine maintenance risks and increasing accounting department productivity.
- Built and maintained internal web applications, including leave request systems, recruitment portals, and logistics planning tools.
- Managed and queried complex data from SAP Business One to generate automated reports and internal dashboards.
- Provided comprehensive hardware and software support for office users, ensuring seamless business operations

BOSS Computech

2016 - 2018

Special Technical Support

- Installed and configured network infrastructures for government and private sectors.
- Deployed and configured MikroTik and Ubiquiti networking devices, including professional cabling and infrastructure setup.
- Provided hardware and software troubleshooting to ensure minimum system downtime.

EDUCATION

Bachelor of Business Management
