PROFILE

IT professional with 9 years of experience in IT support, internal web application development, and database-driven business systems. Experienced in building practical systems using PHP, SQL Server, and MySQL, including fleet maintenance tracking, leave request systems, recruitment portals, and logistics planning tools.

Skilled in SQL queries, SAP Business One reporting, internal process improvement, and basic IT operations. Currently expanding my skills in automation and DevOps practices to support more reliable and efficient business systems.

WORK EXPERIENCE

IT Administrator & Web Developer

2019 - PRESENT

Ornate SDO Co., Ltd.

- Developed internal web applications using PHP,HTML, JavaScript and SQL Server to support business operations.
- Built a Fleet Maintenance and Mileage Tracking System to manage vehicle usage, maintenance records, and accounting-related data.
- Created SQL queries and reports from SAP Business One data to support internal dashboards and operational analysis.
- Maintained and improved existing internal systems based on user feedback and business requirements.
- Provided IT support and basic network troubleshooting when required.

Technical Support Specialist

2017 - 2019

BOSS COMPUTECH CO.,Ltd

- Installed and configured network infrastructure for client sites.
- Configured MikroTik and Ubiquiti devices and supported basic network troubleshooting.
- Provided hardware and software support for end users.
